

Seattle's Office of Economic Development is helping South Park

Services for Businesses · Benefits for the Community

Helping Individual Businesses

- **Connecting industrial and retail South Park businesses with business consulting and financing services.**

Do you need help attracting new customers? A loan to expand your business? Let us help you.

— Making the South Park Business District a Destination —

- **Creating a beautiful open space at the street-end of 14th Avenue South that will be public space for community events.**

What kind of improvements would you like to see here? Things like benches, tables, flags and plants? We are excited to help the South Park community create a vibrant open space for events and gatherings.

- **Marketing South Park as an attractive destination to visit and dine.**

Visitors provide support for South Park businesses. OED will assist with citywide promotion of events to attract visitors to South Park. We will also create and publicize profiles of South Park businesses and the South Park map. Have a South Park event or marketing idea? Let us know.

- **Improving the storefronts in the South Park business district to create a distinctive, fun atmosphere.**

Façade improvements for storefronts, such as signage and painting, create a sense of community. We are excited to work with the business community to beautify the business district.

Questions about how to access business services or give input on these community projects?
